

TRI-TOWNSHIP FIRE DISTRICT
SAGINAW COUNTY, MICHIGAN

REPORT ON FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

MAY 22 2006

Michigan Department of Treasury
496 (2-04)**Auditing Procedures Report**

Issued under P.A. 2 of 1968, as amended.

LOCAL AUDIT & FINANCE DIV.

Local Government Type <input type="checkbox"/> City <input type="checkbox"/> Township <input type="checkbox"/> Village <input checked="" type="checkbox"/> Other		Local Government Name Tri-Township Fire District	County Saginaw
Audit Date 12/31/05	Opinion Date 3/22/06	Date Accountant Report Submitted to State: 4/24/06	

We have audited the financial statements of this local unit of government and rendered an opinion on financial statements prepared in accordance with the Statements of the Governmental Accounting Standards Board (GASB) and the *Uniform Reporting Format for Financial Statements for Counties and Local Units of Government in Michigan* by the Michigan Department of Treasury.

We affirm that:

1. We have complied with the *Bulletin for the Audits of Local Units of Government in Michigan* as revised.
2. We are certified public accountants registered to practice in Michigan.

We further affirm the following. "Yes" responses have been disclosed in the financial statements, including the notes, or in the report of comments and recommendations

You must check the applicable box for each item below.

- ☐ Yes ☒ No 1. Certain component units/funds/agencies of the local unit are excluded from the financial statements.
- ☐ Yes ☒ No 2. There are accumulated deficits in one or more of this unit's unreserved fund balances/retained earnings (P.A. 275 of 1980).
- ☐ Yes ☒ No 3. There are instances of non-compliance with the Uniform Accounting and Budgeting Act (P.A. 2 of 1968, as amended).
- ☐ Yes ☒ No 4. The local unit has violated the conditions of either an order issued under the Municipal Finance Act or its requirements, or an order issued under the Emergency Municipal Loan Act.
- ☐ Yes ☒ No 5. The local unit holds deposits/investments which do not comply with statutory requirements. (P.A. 20 of 1943, as amended [MCL 129.91], or P.A. 55 of 1982, as amended [MCL 38.1132]).
- ☐ Yes ☒ No 6. The local unit has been delinquent in distributing tax revenues that were collected for another taxing unit.
- ☐ Yes ☒ No 7. The local unit has violated the Constitutional requirement (Article 9, Section 24) to fund current year earned pension benefits (normal costs) in the current year. If the plan is more than 100% funded and the overfunding credits are more than the normal cost requirement, no contributions are due (paid during the year).
- ☐ Yes ☒ No 8. The local unit uses credit cards and has not adopted an applicable policy as required by P.A. 266 of 1995 (MCL 129.241).
- ☐ Yes ☒ No 9. The local unit has not adopted an investment policy as required by P.A. 196 of 1997 (MCL 129.95).

INDEPENDENT AUDITORS' REPORT

Members of the Fire District Board
Tri-Township Fire District
Saginaw County, Michigan

I have audited the accompanying financial statements of the governmental activities and each major fund of the Tri-Township Fire District, Saginaw County, Michigan, as of and for the year ended December 31, 2005, which collectively comprise the Fire District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Tri-Township Fire District's management. My responsibility is to express an opinion on these basic financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

As discussed in Note I, the financial statements present only the Tri-Township Fire District Fund (a special revenue fund) and is not intended to present fairly the financial position and results of operations of any of the participating municipality's, in conformity with accounting principles generally accepted in the United States of America.

Tri-Township Fire District
Independent Auditors' Report
Page Two

In my opinion, except for the effects on the financial statements of the omission described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Tri-Township Fire District, Saginaw County, Michigan, as of December 31, 2005, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note IV(c), the Tri-Township Fire District has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis - for State and Local Governments*, as amended and interpreted, as of December 31, 2005.

The Tri-Township Fire District has not presented a management and discussion and analysis that the Governmental Accounting Standards Board has determined necessary to supplement, although not required to be part of, the basic financial statements.

Sary E. Landolt, CPA, PC

Tri-Township Fire District
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balance of Governmental Funds
To the Statement of Activities
For the Year Ended December 31, 2005

Amounts reported for governmental activities in the
statement of activities are different because:

Total net change in fund balances -
governmental funds \$ 80,023

Governmental funds report capital outlays
as expenditures. However, in the statement
of activities the cost of those assets is
allocated over their estimated useful lives
and reported as depreciation expense.

The amount by which capital outlays
exceeded depreciation in the period.

Capital outlays \$ 21,769
Depreciation expense (57,218) (35,449)

The issuance of long-term debt provides
current financial resources to governmental
funds, while the repayment of the principal
of long-term debt consumes the current
financial resources of governmental funds.
Neither transaction, however, has any affect
on net assets. This amount is the net
effect of these differences in the treatment
of long-term debt and related items.

18,268

Change in net assets of governmental activities \$ 62,842

**Tri-Township Fire District
Notes to Financial Statements
December 31, 2005**

I. Summary of significant accounting policies

The financial statements of the Tri-Township Fire District (the Fire District) have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Fire District's accounting policies are described below.

A. Reporting entity

The Townships of Swan Creek, St. Charles and Brant comprise the volunteer fire department of the Tri-Township Fire District. By-laws have been adopted and bound by a resolution signed by each municipality effective February 3, 1986. It was established for the purpose of furnishing fire protection throughout these three Townships. Fremont Township is provided fire protection, also, and is assessed for a contribution.

The Fire District's administrative board consists of seven members who are appointed by the Townships. Two members are appointed from each Township for a six year term and the seventh member is a floater for two years with each of the three Townships taking turns.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Fire District. For the most part, the effect of the interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The Township has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from the goods, services or privileges provided by a given function and 2) grants and contributions

B. Government-wide and fund financial statements (continued)

that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The Fire District has no responsibility for any fiduciary funds. Major individual governmental funds are reported as separate columns in the financial statements.

C. Measurement focus, basis of accounting and basis of presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provided have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Fire District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when a payment is due.

Property taxes, interest and charges for services are susceptible to accrual. Other receipts and taxes become measurable and available when cash is received by the Fire District and are recognized as revenue at that time.

The Fire District reports the following major governmental funds:

The *special revenue fund* is the Fire District's primary operating fund. It accounts for all financial resources of the Fire District.

The *debt service fund* accounts for the payments of long-term debt.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

D. Assets, liabilities and net assets

1. Deposits and investments

The Fire District's cash and cash equivalents are considered to be cash on hand, demand deposits, short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Fire District to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, saving and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or Nation Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which maturity not more than 270 days after the date of purchase. The Fire District is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

The Fire District Board has designated one bank for the deposit of Fire District funds.

2. Capital assets

Capital assets, which include property, plant, and equipment are reported in the government-wide financial statements. Capital assets are defined by the Fire District as assets with an initial individual cost of more than \$500 and an estimated useful life in excess of one year. Such assets are recorded as historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Property and equipment of the Fire District is depreciated using the straight-line method over the following estimated useful lives:

Buildings	40 years
Office equipment	5 years
Fire trucks, pumpers, trailers	10 years
Vehicle	5 years
Minor equipment	5 years

3. Compensated absences

The Fire District does not have a compensated absence policy.

4. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets.

In the fund financial statements, governmental fund types, recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

5. Fund balance

In the fund financial statements, the unreserved fund balances for governmental funds represent the amount available for budgeting future operations. The reserved fund balances for governmental funds represent the amount that has been legally

identified for specific purposes or indicates that a component of assets does not constitute "available spending resources". The designated fund balances for governmental funds represent tentative plans for future use of financial resources.

6. Use of estimates

The process of preparing general purpose financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

II. Stewardship, compliance and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

The Fire District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Management submits to the Fire District Board a proposed budget for the fiscal year commencing on January 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth in the combined statement of revenues, expenditures and changes in fund balances - budget and actual - GAAP basis - general funds.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to January 1, the budget is legally adopted by the Fire District Board as a resolution pursuant to the Uniform Budgeting and Accounting Act (P.A. 621 of 1978). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, or in excess of the amount appropriated.

4. Management is authorized to transfer budgeted amounts between major expenditure functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the Fire District Board.
5. Formal budgetary integration is employed as a management control device during the year for the special revenue fund.
6. The budget as presented, has not been amended.

B. Excess of expenditures over appropriations

During the year ended December 31, 2005, the Fire District has not incurred expenditures in the public safety activity which were in excess of amounts appropriated.

III. Detailed notes on all funds

A. Deposits and investments

At year-end, the carrying amount of the Fire District's deposits and investments were \$256,965 and the bank balance was \$273,168, of which \$200,000 was covered by federal depository insurance.

B. Capital assets

Capital asset activity for the year ended December 31, 2005 was as follows:

	<u>Beginning Balance</u>	<u>Increases (Decreases)</u>	<u>Ending Balance</u>
Governmental Activities:			
Capital assets, not being depreciated	\$ 50,000	\$	\$ 50,000
Capital assets being depreciated:			
Buildings	294,987		294,987
Office equipment	1,746		1,746
Fire trucks, pumpers trailers	535,772		535,772
Vehicles	49,765		49,765
Minor equipment	<u>94,219</u>	<u>21,770</u>	<u>115,989</u>
Total capital assets being depreciated	<u>976,489</u>	<u>21,770</u>	<u>998,259</u>

Less accumulated depreciation for:			
Buildings	(140,119)	(7,375)	(147,494)
Office equipment	(1,746)		(1,746)
Fire trucks, pumpers, trailers	(338,189)	(33,815)	(372,004)
Vehicles	(49,765)		(49,765)
Minor equipment	<u>(56,940)</u>	<u>(16,028)</u>	<u>(72,968)</u>
Total accumulated depreciation	<u>(586,759)</u>	<u>(57,218)</u>	<u>(643,977)</u>
Total capital assets, being depreciated, net	<u>389,730</u>	<u>(35,448)</u>	<u>354,282</u>
Governmental activities capital assets-net of depreciation	<u>\$ 439,730</u>	<u>\$ (35,448)</u>	<u>\$ 404,282</u>

Depreciation expense was charged to functions/programs of the government as follows:

Governmental activities:	
Public safety	<u>\$ 57,218</u>
Total depreciation expense-governmental activities	<u>\$ 57,218</u>

C. Interfund transfers

Interfund transfers:

	Transfer In:		
Transfer out:	Special Revenue Fund	Debt Service Fund	Total
Special revenue fund	<u>\$</u>	<u>\$ 23,200</u>	<u>\$ 23,200</u>
Total transfers out	<u>\$</u>	<u>\$ 23,200</u>	<u>\$ 23,200</u>

D. Long-term debt

Note Payable

The Fire District borrowed \$179,585 for a 1998 Laverne Pumper from Community State Bank on December 14, 1999 at an interest rate of 5.50 percent per annum with payments of \$23,200 annually on June 1st until maturity at June 1, 2009.

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amount</u>
Governmental activities	5.50%	<u>\$ 78,558</u>

Annual debt service requirements to maturity for notes payable are as follows:

<u>Year Ending December 31</u>	<u>Governmental Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2006	\$ 18,858	\$ 4,342
2007	19,895	3,305
2008	20,989	2,211
2009	<u>18,816</u>	<u>1,056</u>
Total	<u>\$ 78,558</u>	<u>\$ 10,914</u>

Changes in long-term liabilities

Long-term liability activity for the year ended December 31, 2005, was as follows:

	<u>Beginning Balance</u>	<u>Additions (Reductions)</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental activities:				
Notes payable	<u>\$ 96,826</u>	<u>\$ (18,268)</u>	<u>\$ 78,558</u>	<u>\$ 18,858</u>

IV. Other information

A. Risk management

The Fire District is exposed to various risks of loss related to property loss, torts, errors and omissions and employee injuries (workers compensation). The Fire District has purchased commercial insurance for these types of claims. Settled claims relating to commercial insurance have not

exceeded the amount of insurance coverage in any of the past three years.

B. Pension Plan

The Fire District does not provide a pension plan for its employees.

C. Implementation of new accounting standard

As of and for the year ended December 31, 2005, the Fire District implemented GASB Statement Number 34 - *Basic Financial Statements -and Management's Discussion and Analysis - State and Local Governments*. The more significant changes required by the standard include a Management Discussion and Analysis; government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting; fund financial statements, consisting of a series of statements that focus on a governments' major funds; and schedules to reconcile the fund financial statements to the government-wide financial statements.

D. Subsequent Event

The Fire District on January 13, 2006 wrote a check in the amount of \$165,000 to purchase property for the future construction of a building for the Fire District.

COMMENTS AND RECOMMENDATIONS

Barry E. Gaudette, CPA, P.C.

Members of the Fire District Board
Tri-Township Fire District
Saginaw County, Michigan

My examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

It was not necessary to make any comments or recommendations.

This letter supplements the information in the Financial Statements and Notes to Financial Statements. It is intended solely for the use of management, the Fire District Board, and the Michigan Department of Treasury and should not be used for any other purpose.
